

NORDIC DESIGN

MEETS MIAMI TROPICAL ON THE TERRACE

Poolside brilliance

When the temperature reaches tropical heights, the best place to be is outdoors – in a cool breeze an arm's length away from a refreshing dip in the pool. The organic shapes of the Nest series exude relaxation and generous comfort – and, now, Cane-line is launching this informal lounge series in exclusive white.

A passion for relaxing outdoors life with all the glorious things that come with it in the shape of proximity and intimacy in beautiful surroundings? No-one expresses all of this better than Danish Cane-line. For decades, furniture manufacturer Cane-line has created the ultimate in luxury outdoor furniture for the global audience. Note too that the furniture retains its exclusive expression year after year with just a minimum of care.

Nest Outdoor

*Design: Foersom & Hiort-Lorenzen MDD
Seat and seat back cushions (except Round chair) with a core of QuickDryFoam® and Cane-line Natté covers.
Colour seat cushions: White*

Cane-line has now updated **Nest**, a retro-inspired, high-end series of furniture, with an exclusive white-on-white version – strongly inspired by the laid-back lifestyle and joie de vivre of sunny destinations like Miami, Dubai and Rio de Janeiro. In Denmark, the weave furniture tradition dates back to the 1960s. Since then, Cane-line has refined and updated its designs, creating them in materials that can withstand many years outside – in a palette of colours that focus on a lighter, more natural scale.

Danish design duo Foersom & Hiort-Lorenzen MDD has created this beautiful, hand-woven lounge furniture. In the new, tropical version, intricate weaving patterns are faithfully recreated in white Cane-line Weave® on a matching white aluminium frame. Both materials require only minimal maintenance.

Cane-line Weave® is both colourfast and UV-resistant – even in bright sunlight. The special, innovative selection of these materials for weave and frame was essential to recreate the Nest series in this exclusive white-on-white version.

If you wish to create a comfortable, stylish and roomy outdoor lounge in your outdoor space, you can combine the three-seater sofa, two-seater sofa and lounge chair with, of course, the charming Round chair. The Nest series has cushions with Cane-line's unique Quick Dry & Airflow system covered in Cane-line Natté fabric, where the QuickDryFoam® ensures that the cushions dry surprisingly quickly after rain – and withstand many years outdoors in all weathers.

Cane-line – life made comfortable

For over 30 years, Cane-line has repeatedly pushed the boundaries in outdoor furniture. Cane-line has an innovative knack of combining materials and applying new technologies. Add Cane-line's uncompromising approach to comfort and it is obvious why the Danish design company is one of the world's leading producers of outdoor furniture and accessories. Cane-line produces the vast majority of its designs at its own factory in Indonesia. Cane-line's approach and activities have earned the company several internationally recognised environmental certifications. Cane-line believes that responsibility for the environment and people always matter more than design and furniture production. For further information, visit cane-line.com.
